

Sky Nursery is proud to offer a beautiful selection of excellent tomato varieties here at Sky. We've added a few varieties to our list this year, and others are back by popular demand. Our tomatoes are sustainably grown in Washington and Oregon. They are free from GMOs and synthetic pesticides.

### **HEIRLOOM, OPEN-POLLINATED, AND HYBRID VARIETIES**

Many of the varieties we offer are heirlooms: classics developed before about 1950. Heirlooms come in all shapes, sizes, and colors. All heirlooms are open-pollinated (non-hybrid). We also carry newer open-pollinated varieties. Seeds saved from these plants will grow up to be like their parents. Look for "heirloom" or "open pollinated" beneath variety names on this list.

We also carry hybrid varieties. Hybrids are crosses between two or more varieties and are known for vigor, high yields, and disease resistance. This makes them easier to grow and more reliable producers in cool summers. However, if you save seeds from a hybrid, you never know what's going to sprout.

Finally, we have heirloom crosses – hybrids with heirloom parents. The best of both worlds!

### **PLANT HABIT: INDETERMINATE AND DETERMINATE**

Indeterminate (Indet) tomatoes can grow to over 7' tall, can be pruned and trellised, and will produce over a long period. Determinate (Det) varieties grow to a given size and stop. They don't generally require trellises or cages, but they produce for a shorter amount of time. A few varieties are Semi-Determinate (Semi Det). These varieties are compact, but still produce over a longer period of time.

### **DAYS (TO HARVEST)**

The number of days listed under "DAYS" is an estimate of how long it will take for your tomato to produce fruit after you transplant it into the ground. A smaller number means sooner and more reliable production, but some of the most flavorful varieties need longer to mature. All tomatoes prefer nighttime temperatures above 50°F. Plant outside in mid-May, or give them a headstart with a cold-frame, cloche, or greenhouse.

### **ORGANIZATION AND AVAILABILITY**

Sky organizes our tomatoes alphabetically within four categories: Cherry, Slicer, Sauce, and Beefsteak. Categories are subjective, but we've done our best to make them easy to navigate.

We expect the following varieties to be available regularly throughout the season, but not all varieties may be offered at any one time. If your favorite is on this list but is not on the table when you come in, it will likely be back soon. Please give us a call Wednesday-Friday of the following week to ask. We will also bring in some tomato varieties that are not on this list, as interesting ones are sometimes offered in small quantities by our growers. Check out our "specialty" collections and look for the pink "unique this week" signs.

**SLICING: BEEFSTEAK (Usually 12 oz. or larger, lobed)**

NAME	HAB	DESCRIPTION	DAYS
<b>Amana Orange</b> heirloom	Indet	Deep orange with yellow highlights. 5" fluted fruit with a sweet, rich flavor reminiscent of tropical fruit	80 days
<b>Ananas Noire</b> open pollinated	Indet	Green, bronze and orange skin. Green flesh with ruby streaks. Sweet and tangy flavor. Name means "black pineapple."	85 days
<b>Aunt Ruby's Green</b> heirloom	Indet	Neon green with yellow streaks. Meaty green flesh with a sweet flavor. Taste test winner!	85 days
<b>Azyochka</b> heirloom	Indet	Bright yellow, dense, lobed fruit, up to 1 lb. Tasty balance of sweet and citrusy, more complex than most yellows. Early!	70 days
<b>Beefmaster</b> hybrid	Indet	Classic red fruit is sweet, meaty and flavorful. Crack and disease resistant	85 days
<b>Beefsteak</b> heirloom	Indet	Classic sandwich tomato since 1890. 2 lb., dense red fruit with easily-sliced soft skin. Sweet and rich flavor. Disease resistant	80 days
<b>Big Beef</b> hybrid	Indet	Good classic full flavor; up to 1 lb. red fruit. Vigorous; cool tolerant; disease resistant.	75 days
<b>Big Brandy</b> heirloom cross	Indet	The best of 'Brandywine' and 'Big Dwarf' plus hybrid vigor. 12-15 oz., deeply lobed fruit on vigorous plants. Balanced flavor.	75 days
<b>Big League</b> hybrid	Det	Bright red, 14-20 oz fruit will need support on compact plants! Earliest beefsteak!	60 days
<b>Big Rainbow</b> heirloom	Indet	Yellow and red streaks. Red-streaked flesh. Beautiful and delicious, up to 2 lbs.	85 days
<b>Black Krim</b> heirloom	Indet	From the Crimean peninsula. Juicy and dense, 12oz., burgundy fruit. Rich complex flavor with a hint of saltiness.	85 days
<b>Black Sea Man</b> heirloom	Det	Mahogany with olive green shoulders. Intense rich flavor. 12-16 oz. fruit. Prolific and unusual.	75 days
<b>Brandywine</b> heirloom	Indet	Classic 19 <sup>th</sup> century standard-setter for complex and balanced flavor. Up to 7" across, pink, lobed. Needs warmth and sun.	85 days
<b>Brandywine Yellow</b> heirloom	Indet	Golden yellow version of classic favorite, 1-2 lb. fruit	85 days
<b>Caspian Pink</b> heirloom	Indet	Pink. AKA 'Queen of the Pinks.' Brandywine-like size and flavor but ripens better in cool growing conditions.	85 days
<b>Chef's Choice</b> hybrid	Indet	9-12 oz. meaty, round, uniform fruit with great flavor and texture. Productive, disease-resistant plants. Available in <b>Bicolor</b> (yellow & crimson, with sweet savory flavor) or <b>Orange</b> (sweet tropical flavor).	70-80 days
<b>Cherokee Carbon</b> heirloom cross	Indet	Heirloom marriage! The best of 'Cherokee Purple' and 'Carbon,' plus hybrid vigor. Dense, delicious, red fruit with dusky shoulders; 10-12 oz.	75 days
<b>Cherokee Chocolate</b> open pollinated	Indet.	A stable natural mutation of 'Cherokee Purple,' with similar size and sweet rich flavor but even darker bronze-purple color.	70 days
<b>Cherokee Purple</b> heirloom	Indet	Dark pink fruit with dusky shoulders. Delicious, rich flavor similar to Brandywine. Dense fruit weighs up to 1lb.	80 days
<b>Cosmonaut Volkov</b> heirloom	Semi-Det	Red fruit with yellow shoulders, 1 lb. Rich, balanced, sweet tangy flavor, dense texture. Early. Ripens in cool conditions.	70 days
<b>Dr. Wychee's Yellow</b> heirloom	Indet	Golden. Up to 1 lb. fruit with a rich, sweet, low-acid flavor	80 days

## Tomato List 2026

<b>Goliath</b> heirloom	Indet	High yields of one pound or larger, sweet and tasty fruit. One slice covers a sandwich.	85 days
<b>Goliath Bush</b> hybrid	Det	Classic round 4" red fruit on a compact, 3-4' plant. Good disease resistance. Prolific production. Sweet and flavorful	70 days
<b>Great White</b> heirloom	Indet	Creamy white fruit, 1-2 lb. Very sweet, tropical flavor. Large leafy plants protect fruits from sun.	70 days
<b>Lemony</b> heirloom	Indet	Golden yellow Russian heirloom. Sweet & tangy flavor, meaty flesh. Also called Limmony	85 days
<b>Mortgage Lifter</b> Heirloom	Indet	Popular since the 1930s. Good yields of pink-skinned, 1-2 lb. fruits with few seeds. Rich, sweet flavor.	85 days
<b>Paul Robeson</b> heirloom	Indet	Dark brick red fruit with green shoulders, slightly flattened. Distinctive sweet and smoky flavor.	80 days
<b>Persimmon</b> heirloom	Indet	Golden-yellow, 1-2 lb. fruit with super flavor. Reliable and productive. Does well in Northwest.	80 days
<b>Pink Berkeley Tie-Dye</b> open pollinated	Semi-Det	Deep pink-red streaked with metallic green; flesh is kaleidoscope of red, yellow, green. 12oz., dense fruit on sturdy, compact plants. Complex flavor, nice sweet-tart balance.	70 days
<b>Pruden's Purple</b> heirloom	Indet	More of a deep pink than purple color. Amazing flavor, large (10-14 oz) fruit. More productive than Brandywine.	75 days
<b>Striped German</b> heirloom	Indet	Yellow fruit marbled with rose-red, inside and out. Huge (1-3 pound) irregular, ridged fruit. Complex fruity flavor.	80 days

### SLICING: SALAD/GLOBE (up to 12 oz)

NAME	HAB	DESCRIPTION	DAYS
<b>Black Prince</b> Heirloom	Indet	Dark garnet skin; deep red flesh with greenish undertones. 2-3 oz. oval fruit. Rich, sweet flavor. Siberian heirloom, performs well in cool climates.	70 days
<b>Bloody Butcher</b> open pollinated	Indet	2" fruit grows in large clusters. Bright red and juicy. Good, balanced flavor. Early, then produces steadily until frost	55 days
<b>Carbon</b> heirloom	Indet	Dark purple, 8-12 oz. fruit. Exceptionally sweet, complex flavor.	90 days
<b>Celebrity</b> Hybrid	Det	Does well in Pacific NW. 7-8 oz. firm, globe-shaped red fruit. Mild flavor. Crack and disease resistant.	70 days
<b>Celebrity Plus</b> Hybrid	Det	7-9 oz. firm, globe-shaped red fruit. Classic mild Celebrity flavor with improved disease resistance	70 days
<b>Champion</b> Hybrid	Indet	8 oz. classic red fruit. Juicy, meaty and dense with few seeds. Sweet flavor. Excellent for sandwiches. Disease resistant.	70 days
<b>Costoluto Genovese</b> heir.	Indet	Ribbed, firm, fleshy red fruits up to 7 oz. Fine sweet flavor. Great for slicing, but meaty enough for making sauce.	90 days
<b>Czech Excellent Yellow</b> heirloom	Indet	Ping pong ball sized yellow fruit. Sweet and mild with low acidity. Good producer.	75 days
<b>Dona</b> heirloom	Indet	Red. Small round fruit. French variety bred for great acid/sugar balance and excellent flavor. Vigorous, productive	65 days
<b>Early Girl</b> Hybrid	Indet	Red 4-6oz. fruit. Classic favorite starts early and keeps going all season. Good early tomato flavor. Disease resistant.	60 days

## Tomato List 2026

<b>First Lady II</b> hybrid	Indet	Medium-sized, early-ripening red slicer. An Early Girl cross bred for improved disease resistance.	55 days
<b>Fourth of July</b> hybrid	Indet.	4 oz. fruit-Burpee introduction. Extra early! High yield, classic tomato flavor	50 days
<b>French Carmello</b> hybrid	Indet	Red. Popular French variety. 4-5" inch thin-skinned fruit; excellent balanced flavor, disease resistance, and high yields.	75 days
<b>Genuwine</b> heirloom cross	Indet	Best of 'Brandywine' and 'Costoluto Genovese,' plus hybrid vigor. Delicious, 10-12oz. fruit. Much earlier than its parents.	70 days
<b>Glacier</b> open pollinated	Semi Det	Ultra early. Very sweet, orangey-red 2 ½" fruit. Plant is sprawling, open, 2 ½ - 3 ½ feet across.	55 days
<b>Green Zebra</b> heirloom	Indet	Tasty 2" fruit with contrasting bright green and yellow-green stripes and zingy flavor. Developed by Tom Wagner in Everett!	80 days
<b>Hot Streak</b> hybrid	Indet	Orange and red striped 6-12 oz. fruit. Outstanding flavor, excellent disease resistance. Reliable producer	65 days
<b>Japanese Black Trifele</b> heirloom	Indet	2½-3" pear-shaped fruit, mahogany with green shoulders. Rich complex flavor. Very productive. Crack resistant	85 days
<b>Jaune Flammé</b> Heirloom	Indet	Clusters of lovely round 2" apricot-orange fruit. Complex, fruity flavor. Good fresh or dried. Relatively compact vines. Prolific.	75 days
<b>Langley's Silver Tiger</b> hybrid	Indet	Red and orange stripes. 2-4 oz. slicer. Silvery, "frosted" foliage. Early and prolific. Bred locally by Langley's Fine Gardens	75 days
<b>Matina</b> heirloom	Indet	German heirloom. Red 4-6 oz. apple-shaped fruit. Rich, heirloom flavor. Good yields even with cool PNW nights.	70 days
<b>Momotaro</b> hybrid	Indet	Most popular tomato in Japan; sweet, pink fruit with crack-resistant skin. 6-7 oz.	65 days
<b>Moskvich</b> heirloom	Indet	Early Russian heirloom that can set fruit in cool weather. 6 oz. red tomatoes with delicious, rich flavor. Crack resistant.	60 days
<b>New Girl</b> hybrid	Indet	Red 4-6oz. fruit. Very similar to Early Girl but even better flavor and disease resistance	60 days
<b>Orange Blossom</b> heirloom	Det	6-7 oz. globe-shaped fruits are bright orange, mildly acid with a nice balance of flavor	60 days
<b>Oregon Spring</b> open pollinated	Det	Very cold-tolerant variety developed at OSU. 3-8 oz., oval-shaped red fruit. Mild and sweet flavor. Few seeds.	70 days
<b>Rose de Berne</b> heirloom	Indet	Pink-red fruit with smooth, soft skin. 4-8 oz., nice round shape. Rich flavor, nice sweet-acid balance. Swiss heirloom.	75 days
<b>Stupice</b> heirloom	Indet	2" red fruit with excellent, balanced flavor. Resilient, productive, and very cold-tolerant. Czech heirloom.	60 days
<b>Taxi</b> open pollinated	Det	Bright yellow, 4-6 oz. fruit with sweet, low-acid flavor. Early; prolific for a 3-4-week period. Adaptable, resilient plants.	75 days
<b>Tigerella</b> heirloom	Indet	Red with yellow-orange stripes. 2" fruit is tangy and sweet. English heirloom. Growers' favorite, heavy yields until frost	65 days
<b>Valencia</b> heirloom	Indet	Deep orange fruits, smooth and round, 8-10 oz. Heirloom from Maine that is often difficult to find. Grows well in cool climates.	75 days
<b>Yellow Perfection</b> heirloom	Indet	2-3" bright yellow fruit. Great flavor; juicy and thin-skinned. Grows in a variety of weather conditions. Potato leaf type.	75 days

**SAUCE/PASTE**

NAME	HAB	DESCRIPTION	DAYS
<b>Amish Paste</b> heirloom	Indet	Deep red, juicy, meaty 8 oz. fruit with few seeds. Traditional tomato flavor; low acid. Delicious fresh or in sauce.	80 days
<b>Anna's Russian</b> heirloom	Indet	Heart-shaped, dense, pink-red fruit up to 1 lb. Rich, sweet, complex flavor. Great fresh or in sauce. Tolerates cool weather.	70 days
<b>Giant Oxheart</b> heirloom	Indet	Rose-pink fruit reaches up to two pounds. Dense fruit and great flavor as typical of oxheart types.	70-90 days
<b>Green Grape</b> heirloom	Det	Chartreuse skin, lime green flesh. Rich, sweet, and zingy flavor! Originally bred for green catsup but also makes a tasty snack.	65 days
<b>Heinz 2653</b> open pollinated	Det	Red and meaty. "Perfect canning tomato"- 2 ½ - 3 oz. fruit ripens all at once on compact upright plant.	65 days
<b>Hungarian Heart</b> heirloom	Indet	Giant, 1b reddish pink heart-shaped fruit. Excellent for paste, sauce, or fresh eating. Rich flavor. Dense texture; few seeds.	85 days
<b>Lil Napoli</b> hybrid	Det	2-3 oz. red fruit is dense, meaty and flavorful. Perfect for soups and sauces. Dwarf plant only 12-24" tall and 24-36" wide.	50-55 days
<b>Orange Strawberry</b> open pollinated	Indet	Deep orange fruits are perfectly heart-shaped. They weigh in at 8 oz. to 1 lb. and have a strong, complex yet sweet flavor.	80 days
<b>Paisano</b> hybrid	Det	Especially abundant production of red, sweet, 3 oz. fruit. Good for sauce and canning.	75 days
<b>Principe Borghese</b> heir.	Det	Plum-shaped, meaty, with little juice and few seeds. Bred for drying, also makes good sauce. Prolific yields, good flavor.	75 days
<b>Roma</b> heirloom	Det	Classic large Italian paste tomato. Thick walls, low moisture content. Good fresh, cooked, or in sauce. Disease resistant.	75 days
<b>Salvaterra's Select</b> heirloom	Indet	2.5-3.5" red plum-shaped fruit. Sweet and tangy with meaty texture. Taste test winner, growers' favorite!	70-80 days
<b>San Marzano</b> heirloom	Indet	Italian heirloom, and a classic for rich and flavorful sauces. Up to 5" long fruit. Small seed cavity with few seeds	80 days
<b>Speckled/ Striped Roman</b> Hybrid	Indet	Beautiful cross between Antique Roman and Banana Legs. Red with golden streaks. 5" fruit with rich, delicious flavor, dense texture and very few seeds	85 days
<b>Viva Italia</b> hybrid	Det	Hybrid 'Roma' with improved production and disease resistance. Flavorful and sweet, perfect for sauce or ketchup.	85 days

**CHERRY: CLASSIC ROUND**

NAME	HAB	DESCRIPTION	DAYS
<b>Black Cherry</b> open pollinated	Indet	1" fruits on vigorous plants. The truly black cherry! Sweet, rich, complex flavor that rivals full-sized purple heirlooms. Prolific.	70 days
<b>Blondkopfchen</b> heirloom	Indet	"Little blond girl." Giant clusters of ½-1" sweet golden fruit. Productive. Crack-resistant. Cold-tolerant German heirloom.	75 days
<b>Bumblebee</b> hybrid series	Indet	Unique 1" tomatoes with contrasting vertical stripes. Complex, mellow flavor. <b>Pink</b> (pink red with yellow & orange stripes), <b>Purple</b> (bronzy purple with lime green stripes), and <b>Sunrise</b> (orange and red inside and out)	70 days

## Tomato List 2026

<b>Camp Joy</b> heirloom	Indet	Heavy clusters of 1" red fruit on vigorous vines. Sweet, balanced, complex flavor. AKA Chadwick	70 days
<b>Chocolate Cherry</b> open pollinated	Indet	1" dark maroon fruit. Rich, sweet, and complex flavor. Relatively compact vines. Crack-resistant; can ripen off vine	70 days
<b>Indigo Rose</b> open pollinated	Indet	2" fruit is bright orange red on shaded portions, indigo in sun. Rich tomato flavor.	80 days
<b>Isis Candy</b> heirloom	Indet	Unique red and gold marbling inside and out. Complex, rich and fruity flavor. Prolific production of 3/4" fruit.	70 days
<b>Midnight Snack</b> Hybrid	Indet	Trusses of 1 1/2" fruit, bright red with an indigo overlay. Great flavor and antioxidant content. Productive.	70 days
<b>Orange Paruche</b> hybrid	Indet	1", glowing bright orange fruit. Extremely sweet and flavorful. Very vigorous and productive plants	65 days
<b>Riesentraube</b> heirloom	Indet	Red. Huge clusters of 20-40 1.5" fruits. The name is German for "cluster of grapes." Sweet complex flavor.	75 days
<b>Snow White</b> hybrid	Indet	Lovely ivory fruits ripen to pale yellow; sweet & complex flavor; 1/2" fruit. Produces in cool weather!	70 days
<b>Sugar Lump</b> Heirloom	Indet	One of the sweetest cherry tomatoes ever. 1" red fruit grows in large clusters. Vigorous and productive. German heirloom.	60 days
<b>Sungold</b> Hybrid	Indet	1 1/4" golden orange fruit. Exceptionally sweet, complex, fruity flavor. Disease resistant; prolific. Thin skinned; cracks easily	65 days
<b>Sunsugar</b> Hybrid	Indet	Similar to 'Sungold,' but with thicker skin for crack resistance. Some prefer one, some the other.	60 days
<b>Sweet 100</b> hybrid	Indet	The original classic! "100" bright red 1/2" fruit on long trusses! Very sweet and flavorful; high in Vitamin C. Vigorous vines.	70 days
<b>Sweet Million</b> hybrid	Indet	Similar to 'Sweet 100,' but with better disease resistance, larger 1" fruit, and thicker skin for crack resistance.	70 days
<b>Washington Cherry</b> heirloom	Det.	1" red fruit on compact, prolific plants. Keeps well. Resists cracking. Developed at WSU for cool conditions	60 days

### CHERRY: CURRANT (pea to dime-sized fruit)

NAME	HAB	DESCRIPTION	DAYS
<b>Lemon Drop</b> open pollinated	Indet	Bright lemon-yellow, 1/2-3/4" fruit. Refreshing, bright and sweet flavor. Prolific production. Performs well in cool weather.	70 days
<b>Matt's Wild Cherry</b> heirloom	Indet	Extremely vigorous vines. Deep red, 1/2-3/4", exceptionally flavorful cherry tomatoes. Said to be similar to a wild variety from Mexico.	65 days
<b>Red Currant</b> open pollinated	Indet	Big clusters of 1/2" fruit packed with sweet and complex flavor. Vigorous, sprawling vines: make sure you give them plenty of space!	75 days
<b>Sweet Aperitif</b> open pollinated	Indet	Dime-sized red fruit with exceptional sweetness, tropical aroma. Crack resistant. Productive and vigorous vines.	60 days

**CHERRY: GRAPE AND PEAR SHAPED**

NAME	HAB	DESCRIPTION	DAYS
<b>Cherry Roma</b> heirloom	Indet	Red, plum-shaped, 1" fruit, great fresh or dried. Sweet, spicy flavor; very productive plants	75-80 days

<b>Tumbling Tom Red</b> hybrid	Det	Hangs rather than climbs; compact plants covered with 1 ½" sweet red fruit. Great for hanging baskets. AKA 'Tumbler'	70 days
<b>Tumbling Tom Yellow</b> hybrid	Det	Hangs rather than climbs; compact plants covered with 1 ½" sweet yellow fruit. Great for hanging baskets.	70 days

## SUPER DWARF TOMATO VARIETIES

### THE DWARF TOMATO PROJECT

The Dwarf Tomato Project is a tomato breeding program run by tomato aficionados dedicated to producing tomatoes with heirloom flavor and good productivity but on compact plants. These varieties tend to run about half the size of comparable heirlooms and hybrids. All varieties are OpenSource Seed Initiative varieties, meaning the seeds can be saved or shared and are not allowed to be patented by a company. They are all hybrids produced by regular breeding. These varieties are great for containers but also perform well in the garden. Availability may vary depending on the growers!

NAME	HAB	DESCRIPTION	DAYS
<b>Beauty King</b>	Indet	Slicer type. 6-12 oz. round red fruit with gorgeous gold speckles and stripes. Meaty fruit, sweet well-balanced flavor	75 days
<b>Chocolate Lightning</b>	Indet	Slicer type. 4-8 oz. bronze fruit with green and gold streaks; rich, intense flavor. Sturdy 4+' plants need support. Prolific.	80 days
<b>Hannah's Prize</b>	Indet	Slicer type. Round flattened red fruit, 6-12 oz. Very nice well-balanced, slightly tart flavor. Excellent yields.	75 days
<b>Lemon Ice</b>	Indet	Sauce type. 4-6 oz. heart-shaped lemon yellow fruit. Dense sweet flesh; excellent flavor. 3' tall plants with wispy leaves.	70 days
<b>Pink Passion</b>	Indet	Sauce type. Crimson pink medium-sized heart-shaped fruit. Sweet, well-balanced flavor; excellent yields.	65 days
<b>Sweet Scarlet Dwarf</b>	Indet	Beefsteak type. Medium to large, 6-16 oz. flattened scarlet red fruit with superb flavor. Potato leaf variety.	85 days
<b>Tasmanian Chocolate</b>	Indet	Slicer type. 5-12 oz., mahogany and orange-red fruit with sweet, full flavor similar to Paul Robeson on a 3-4' stocky plant.	60 days

### TOMATOES GREAT FOR CONTAINERS

All of the **Super Dwarf** varieties above do well in containers, as do all of the **Patio/Container** cherry tomatoes.

Here are some other varieties we carry that are specifically recommended for small-space and container gardening. Other varieties labeled "determinate" can also be container-grown!

**Big League** (beefsteak) Bright red, 14-20 oz fruit on compact plants. Fruit will need support!

**Goliath Bush** (beefsteak) Classic round red fruit with sweet flavor. Fruit will need support!

**Oregon Spring** (slicer) Very cold-tolerant variety developed at OSU. 3-8 oz., oval red fruit.

**Taxi** (slicer) Bright yellow, 4-6 oz. fruit with sweet, low-acid flavor.

**Lil Napoli** (sauce) 2-3 oz. red fruit is dense, meaty and flavorful. Dwarf plant only 12-24" tall.

### RECOMMENDED TOMATO VARIETIES FOR BEGINNING GARDENERS

Every variety on our tomato list was chosen because we would recommend it to at least some gardeners, but which varieties are right for you will depend on your goals and preferences. Here's a list of some varieties that we think taste great and produce reliably for most gardeners. If you're not sure where to start, start here.

#### BEEFSTEAK TYPES

**Big Beef** Reliable, flavorful variety with resistance to quite a few common tomato diseases

**Big Brandy** Excellent flavor and a long harvest on a vigorous plant. Will need support

#### SLICING TYPES

**Black Prince** A reliable and cold-tolerant heirloom with a beautiful, dusky color

**Bloody Butcher** Impressively tasty for such an early and productive variety

**Jaune Flamme** A reliable heirloom with beautiful orange color and fruity, rich flavor

**Moskvitch** Very early, delicious Russian heirloom that ripens in cool conditions

**Oregon Spring** Developed here in the PNW. Compact plant; ripens within a short window

**Stupice** Productive, adaptable, and cold-tolerant. Good, balanced flavor

**Taxi** Compact plant with sweet and non-acidic, bright yellow fruit.

#### CHERRY TYPES

**Black Cherry** Very productive and sweet, and also unique and beautiful. Will need support.

**Gold Nugget** Yellow compact cherry. Great for containers and small spaces.

**Oregon Cherry** Red compact cherry. Great for containers and small spaces.

**Sungold** Our most popular variety – look for it mid-week. Vigorous vines and great flavor. Will need support.

**Sunsugar** Very similar to 'Sungold,' but some prefer one or the other. Tougher skin; bred to resist cracking. Will need support.

**Sweet Million** Our most popular red cherry. Sweet, productive, and disease resistant. Will need support.
